

Gentlemen,

I am against the Consumer Bankers Association challenge to Indiana's Telephone Privacy Law. I have greatly enjoyed the peace and quiet in my home from telephone interruptions during our valued family times since I have utilized the Privacy Law. This challenge by the Bankers would significantly weaken the law and allow unwanted invasion of my and my family's privacy. I most ardently request that you reject this challenge by the Consumer Bankers Association.

Gratefully,  
Larry J. Buckel
